PROFESSIONAL SUMMARY

Commercially experienced data and BI professional with 15 years' experience using sales, stock, pricing, forecasting and product data to drive commercial decisions across international retail. Currently responsible for a **£120m retail operation spanning 550 stores across 13 European markets**, following the merger of UK and Export Retail merchandising functions. Strong track record translating complex commercial datasets into actionable insight through Power BI, Excel and analytical reporting. Developed BI solutions adopted across all retail markets by **18 merchandising users and 30+ Operations users**, replacing heavily manual reporting processes and improving reporting efficiency by an estimated 30–40%.

Contributed to **8.5% sales growth (+7% LFL)** and a **0.7 percentage-point margin improvement** during the retail business's most profitable year, alongside ownership of pricing, forecasting, stock, range and commercial planning.

Combines extensive commercial experience with developing technical capability across **Power BI, DAX, SQL, Python, Pandas and data modelling**, supported by a Merit in the Code Institute Full Stack Web Development Diploma with a specialism in predictive analytics.

Now targeting Data Analyst, BI Analyst or Junior BI Developer opportunities, bringing the combination of commercial understanding, analytical problem-solving, technical development and senior stakeholder experience.

SKILLS

Business Intelligence

Power BI · DAX · Power Query · Dashboard development · KPI design · Data visualisation · Data storytelling · Requirements gathering

Data Analysis

Advanced Excel · SQL · Python · Pandas · NumPy · scikit-learn · Matplotlib · Jupyter

Data Modelling & Databases

Star schema · Relational data modelling · PostgreSQL · SQLite · MySQL · SQLAlchemy

Commercial Analytics

Sales & trading analysis · Forecasting · Pricing analysis · Sell-through · Stock & availability · Product/option productivity · Pareto analysis · Margin analysis · KPI reporting

Development & Tools

Django · Flask · React · REST APIs · JavaScript · HTML/CSS · Git · GitHub · VS Code

Leadership & Stakeholder Management

Cross-functional collaboration · Senior stakeholder engagement · Requirements gathering · Team leadership · Change management · Training & adoption

EXPERIENCE

Export Retail Merchandise Manager, Regatta Ltd, Feb 2023 - current

- **Managed merchandising activity across a £120m retail business spanning 550 stores in 13 European markets**, covering 176 owned stores and 374 concessions across the UK, Germany, Ireland, Italy, Poland, Netherlands, Slovakia, Czech Republic, Latvia, Lithuania, Hungary, Croatia and France.
- **Contributed to the most profitable year in the retail business's history**, supporting sales growth of **8.5% (+7% LFL)** and a **0.7 percentage-point margin improvement** through data-led trading, pricing, stock and commercial decision-making.
- **Led the merger of UK and Export Retail merchandising teams**, creating a combined **19-person function with six direct reports** and establishing consistent planning, reporting and analytical processes across the enlarged retail estate.
- **Developed and rolled out Power BI reporting across all retail markets**, replacing heavily manual Business Objects-to-Excel reporting processes involving data extraction, pivot tables, static reports, manual mapping and VBA. Improved

reporting efficiency and reduced manual reporting workload by an estimated **30–40%**.

- **Built and maintained commercial dashboards used by 18 merchandising users and 30+ Operations users**, providing a shared view of sales, stock, sell-through, pricing, option productivity and trading KPIs across retail and operational teams.
- **Delivered granular commercial analysis across store × week × brand/division × month**, enabling teams to identify trading trends, performance gaps and opportunities at market, store and product level.
- **Analysed performance across 800+ styles and up to 2,000 style-colour combinations**, developing option productivity, Pareto contribution and sell-through reporting to identify high-performing products and improve range and stock decisions.
- **Owned retail pricing governance across all markets and stores**, developing market-specific price ladders and guardrails alongside competitor, promotional and pricing analysis to support margin and competitiveness.
- **Improved stock and availability decision-making** through forecasting, OTB planning, category analysis and BI reporting, balancing sales opportunities against overstock and availability risk across two distribution centres in the UK and Poland.
- **Managed commercial planning across the full retail estate**, with budgets analysed at store/week and brand/division/month level, translating detailed trading data into actionable insight for senior leadership, merchandising and Operations.
- **Partnered with Buying, Finance, Marketing, Supply Chain, Digital and Operations teams** to turn commercial requirements into analytical outputs, recommendations and process improvements.
- **Supported major systems and operational change**, including Merchandising Financial Planning implementation and migration from AS400 to Microsoft Dynamics WMS across the wider retail operation.

Senior Merchandiser, Regatta Ltd, Feb 2016 - Jan 2023, Manchester

Merchandiser Dare2b Brand/ UK Concessions, Regatta Ltd, Jan 2014 - Jan 2016, Manchester

Assistant Merchandiser/ Regatta Group, Regatta Ltd, April 2011 - Jan 2014, Manchester

Stock Controller/In Store Merchandiser, The White Company, Jan 2010 - Jan 2011, Manchester

Stock Controller In Store , Next, Nov 2006 - Jan 2010, Manchester

SELECTED TECHNICAL PROJECTS

Ascent Analytics

Python • Pandas • SQL • Power BI • DAX • SQLite/PostgreSQL

- Built an end-to-end Business Intelligence platform transforming deliberately messy operational data into a validated SQL warehouse, star-schema semantic model and executive Power BI reporting suite.
- Developed a Python data-cleaning and validation pipeline using Pandas and Pandera, applying deduplication, data standardisation, missing-value handling, referential-integrity checks and schema validation, with every transformation recorded in an auditable data-quality log.
- Processed **151,477 cleaned rows across 12 tables**, achieving **99.8% average completeness and zero post-cleaning validation failures**, with **11,519 individual data-quality fixes** documented.
- Designed and built a **Kimball-style star schema** in SQLite with PostgreSQL-compatible DDL, including six dimensions, seven fact tables, reporting views and an analytical SQL query library using joins, CTEs, aggregations and window functions.
- Developed a Power BI semantic model with DAX measures and **10 executive and departmental dashboards** covering sales, customers, guides, routes, marketing, operations, finance, website analytics and data quality.
- Produced an insight report translating warehouse analysis into actionable recommendations, identifying commercial patterns including demand spikes, cancellation risk, marketing performance and guide discount behaviour.

Winter Mountain Tours Demand Predictor

Python • Pandas • scikit-learn • Streamlit

- Developed a predictive analytics application using historical mountain-tour booking data to forecast seasonal demand and support operational planning.
- Built data-processing pipelines using Pandas and developed predictive models with scikit-learn.
- Delivered an interactive Streamlit dashboard presenting model outputs and operational insights for business decision-making.

Retail Analytics Portfolio

SQL • Python • Pandas • Power BI

- Designed an end-to-end retail analytics solution combining relational data modelling, analytical SQL, Python data processing and Power BI visualisation.
- Built analytical queries and automated data-processing workflows to transform commercial data into reporting-ready datasets.
- Produced interactive Power BI dashboards presenting commercial KPIs, trends and business insights.

Summit Log UK

React • Django REST • PostgreSQL • Leaflet

- Developed a full-stack data application tracking **800+ UK mountain summits**, including user authentication, completion history and progress analytics.
- Designed a PostgreSQL-backed data model and Django REST API consumed by a React frontend.
- Implemented interactive mapping, achievement tracking and responsive dashboard functionality.

UK Summit Guides

React • Django REST • PostgreSQL • Stripe • Leaflet

- Developed a commercial-style booking platform for guided mountain tours with authentication, route data and booking management.
- Integrated GPX route mapping, live weather data and Stripe payment processing.
- Designed REST APIs and implemented booking, cancellation and availability workflows.

EDUCATION

Full Stack Web Development , Web Development

Jan 2026

Code Institute

Completed Full Stack Web development diploma with a specialism in predictive analytics. Grade : Merit.

New Manager Bootcamp, Management Training

Feb 2023

The Hub Events

The new manager Bootcamp is a one day , practical training course designed to equip first time managers. It focuses on building essential management skills , confidence, and tools to lead effectively, handle common challenges, and make a successful transition into leadership roles

JTME Certificate, JTME Course

Nov 2017

Instep - Manchester

Completed JTME (Journey to Management Excellence Course) offered by the company

Personal Effectiveness Certificate, Personal Effectiveness Course

Nov 2014

Instep - Manchester

Completed Personal Effectiveness Course offered by Company in 2014

WEAF level 2 Computerised Accounting, Basic Accounts part 1 &2, Finance

Aug 2011

Kaplan Financial - Manchester

Kaplan Financial

March 2011 - Sept 2011

Studied Accounting WEAF module

Studied for one year - Was unable to complete due to financial reasons, Hospitality & Management

May 2008

Manchester Metropolitan - Manchester

GCSEs

June 2001

Our Lady's RC High School - Manchester

8 x GCSE's A-C
